PAK TRADE FLOW · WEEKLY

Pakistan Port Cargo Monitor

Data to Oct 16, 2026
Port Qasim · Karachi Port Trust

What changed

1 **Fertilizer inputs up 89%** FFC · EFERT · FATIMA
226,077 MT across 7 vessels berthed Sep 19–Oct 16, against 119,624 MT from 4 vessels in the 28 days before.

2 **Furnace oil exports down 38%** PRL · NRL · ATRL
95,685 MT across 5 vessels berthed Sep 19–Oct 16, against 153,273 MT from 8 vessels in the 28 days before.

3 **Cement & clinker exports up 30%** LUCK · ACPL · POWER · DGKC
743,302 MT across 17 vessels berthed Sep 19–Oct 16, against 572,243 MT from 13 vessels in the 28 days before.

4 **Palm Oil at LCT: anchorage wait up to 14 days**
Median wait before berthing was 14.0 days for the 13 vessels berthed in the last 28 days, from 8.0 days before. 8 more are waiting now. Longer waits mean demurrage for importers and later arrival of cargo inland.

5 **171,976 MT of edible oil waiting to berth**
8 vessels at Port Qasim's outer anchorage on the Oct 16 report, waiting 6.1 days on average so far. In all, 367,378 MT across 13 vessels is queued.

PSX signals

Tonnage berthed Sep 19–Oct 16, 2026 vs the prior 28 days, by vessel-call manifest.

FLOW · TICKERS	LAST 28D (MT)	VESSELS	CHANGE	WAITING NOW (MT)	MEDIAN WAIT
Coal imports LUCK · DGKC · MLCF · FCCL · HUBC	1,020,360	19 (22)	-12%	109,908	5.0d

Anchorage wait by terminal

Median days from arrival to berthing, vessels berthed in the last 28 days vs the 28 before.

TERMINAL	MAIN CARGO	MEDIAN WAIT	PREVIOUS	VESSELS	WAITING NOW
LCT	PALM OIL	14.0d	8.0d	13	8
PIBT	COAL	6.0d	7.0d	13	2
M/W	CEMENT	5.0d	2.5d	13	2
FAP	SOYBEAN SEED	3.0d	14.0d	7	0
PQEPT	COAL	2.5d	2.0d	4	0
EVTL	ETHYLENE	2.0d	1.0d	4	0
SSGC	LPG	1.5d	2.0d	4	0
FOTCO	MOGAS	1.5d	4.0d	10	1
QT2	CONTAINERS	0.5d	0.0d	10	0
QICT	CONTAINERS	0.0d	0.0d	7	0

Method. Built from the daily statements Port Qasim and Karachi Port Trust publish. Each vessel visit is counted once, at its berthing date, at its manifest quantity, so a ship that works cargo for a week is not counted seven times. Anchorage lists and waiting times are Port Qasim only; KPT does not publish one. LNG is reported in m³ and shown converted at 0.45 t/m³ (*). Coverage starts March 2026 (KPT) and late April 2026 (PQ).

Vessels column: this window (previous window). “n/m”: fewer than 3 vessels in a window, too few for a percentage to mean anything.

Ticker mappings indicate which companies a flow bears on. They are research inputs, not investment advice.
